AMBATI KAVYA

Software Developer | Java | Spring Boot | React | Flutter | Supabase
Hyderabad, India | +91 7981272701 | Kavyagoud051@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Software developer building production web and mobile applications with Supabase as the complete backend — database, authentication, storage, security policies and deployment — using React and Flutter front ends, with a foundation in Java/Spring Boot. Built EduGrow 360, a large-scale school management CRM with companion Parent and Teacher apps, and MaintainEzy, a multi-role residential society management app. Owns features end-to-end, from schema and policies through UI, testing and release.

TECHNICAL EXPERTISE

Languages: Java, Dart, JavaScript, SQL **Frameworks & ORM:** Spring Boot, Hibernate ORM, Servlets, JSP
Mobile: Flutter, Riverpod (state management), React Native **Web:** HTML, CSS, React, REST APIs
Supabase (primary backend): PostgreSQL schema design, SQL/PL-pgSQL RPC functions, Row-Level Security, Auth, Storage, Realtime, migrations, staging/production deployment
Databases: PostgreSQL, MySQL, JDBC **Concepts:** RBAC, multi-tenant data design, billing workflows
Tools & Platforms: Git, VS Code, Antigravity, IntelliJ IDEA, Eclipse, Android Studio, Apache Tomcat, JBoss

PROFESSIONAL EXPERIENCE

Associate Software Developer — ASR Digi Solutions *Feb 2026 – Present*
Developer & Tester — EduGrow 360 CRM, MaintainEzy Society Management App

- Built EduGrow 360, a large-scale school management CRM, end-to-end — including the Parent and Teacher mobile apps — using React and Supabase; developed the Leave Management and Daycare modules from schema through UI.
- Developed MaintainEzy, a Flutter + Supabase app for gated communities serving Residents, Society Admins and Security staff, sharing one PostgreSQL backend with the company's web CRM.
- Owned production/staging deployment (Supabase push/pull, DB URLs, host connections); tested and debugged environment-specific issues to keep systems stable for live users.

Web Development Intern — Extrude IT Services Pvt. Ltd. *Jun 2025 – Dec 2025*

- Built full-stack web applications using Java, Spring Boot and relational databases, including Student Management, Inventory and Billing systems.
- Designed database schemas and implemented backend logic for core business workflows across multiple projects.

PROJECTS

MaintainEzy — Residential Society Management App | *Flutter, Dart, Riverpod, Supabase (PostgreSQL)*

- Built monthly billing: billing cycles, flat-wise charges (maintenance, water, electricity, ad-hoc), outstanding carry-forward, itemised invoices, payment-proof upload and receipts.
- Delivered Visitor Management, Daily Help worker registration with slot booking, amenity booking with double-booking prevention, and Security Head duty assignment.
- Secured data with PostgreSQL Row-Level Security and Storage policies, fixed multi-role user resolution via a shared SQL function, and added role/society-targeted notifications.

EduGrow 360 CRM — School Management System | *React, Supabase (PostgreSQL)*

- Large-scale school management platform with Parent and Teacher apps; built Leave Management and Daycare modules and managed Supabase deployment.

Billing Software System | *Java, Spring Boot, PostgreSQL*

- Developed a billing application with invoice generation and payment tracking; built and secured REST APIs with authentication.

EDUCATION

B.Tech in Information Technology *May 2025*
St. Martin's Engineering College, Hyderabad — CGPA: 8.23

CERTIFICATIONS

- Web Development Internship Certificate — Extrude IT Services Pvt. Ltd. (Java, Spring Boot & full-stack web applications)
- Data Science Training — Embrizon Technologies | Java & Spring Boot Certification — Udemy
